Uncover Opportunities. Scale with Confidence and Power Innovation with Generative AI

GenAI & AIML are transforming how businesses operate—enabling smarter decisions, enhanced customer experiences, and scalable automation. Noventiq's structured assessment helps you evaluate your GenAI & AIML readiness, identify impactful use cases, and build a clear roadmap for enterprise-wide adoption on AWS.
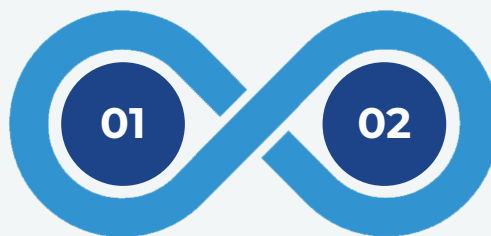

Delivered over a focused two to four-week program, our assessment uncovers how GenAI & AIML can help your organization achieve its goals and reveals new opportunities made possible by these technologies.

- ➤ Assess your current GenAI & AIML maturity and infrastructure
- ➤ Identify high-impact use cases aligned to business priorities
- ➤ Develop a roadmap for scalable enterprise-wide implementation

Our Key Areas of Assessment

GenAI & AIML Maturity & Infrastructure Review
Analyse your current data, team skills, technology, and governance to understand readiness.

01 **02**

Strategic Use Case Identification
Discover and prioritise GenAI & AIML use cases aligned with your key business objectives.

Core Pillars of Assessment

Business Alignment
Understand priorities and challenges through stakeholder interviews and workshops.

Opportunity Identification
Conduct ideation sessions and prioritise use cases based on impact and feasibility.

Data & Infrastructure
Assess data quality, pipelines, and AWS platforms for AI/ML readiness.

Governance & Compliance
Examine data privacy, security, and regulatory compliance frameworks.

GenAI & AIML Maturity
Review current models, tools, and team capabilities.

Deliverable Highlights

✓ **GenAI & AIML Readiness Scorecard**
